James Wild MP has explained in his Newsletter that new investment to improve the sewage network in the Creakes and £1.5 million to upgrade Burnham Market Water Recycling Centre (WRC) in response to the flooding last winter. Specifically in Burnham Thorpe, Anglian Water conducted CCTV survey work on the sewers in Burnham Thorpe between 21st February and 4th March to help detect water infiltration into the foul sewer network and impacts on the pumping station. Results from these surveys will indicate what subsequent work may be needed on the sewer network. Anglian Water expects that the sewers and the WRC will operate as efficiently as possible to help reduce the likelihood of flooding events impacting our system and affecting the residents in the Creakes and Burnhams
